

## Florida Forest Service Completes 17th Silviculture BMP Survey

Progress has been made in the 17th Florida Forest Service (FFS) Silviculture Best Management Practice (BMP) Survey. The FFS Silviculture BMP Survey is a statewide effort to assess the effectiveness of BMPs on forest lands. The survey is conducted every five years. The 17th survey was completed in December 2013. The survey results will be used to evaluate the effectiveness of BMPs and to identify areas for improvement. The survey is a key component of the FFS Silviculture Program. The survey is a key component of the FFS Silviculture Program. The survey is a key component of the FFS Silviculture Program.
